

Rich of its know-how, JOËLETTE AND CO developed a new product: the JOËLETTE KID. This all-terrain chair single-track for disabled children will allow you to go on an adventure with your family or your friends.

A CONCEPTION STUDIED FOR KIDS

Very comfortable and secure, it has been imagined for children. It is very easy to handle and requires only one guide. This all-terrain wheelchair provides you a comfortable seating and a support to practice hiking or running in all seasons.

Created by our design office, in partnership with an orthopedic center, the JOËLETTE KID offers you several possibilities. In particular, it allows you to integrate your seat-corset directly on the product, thanks to a universal interface.

LET'S GO ON AN ADVENTURE IN SERENITY

Thanks to its two single-track wheels, the JOËLETTE KID can go everywhere, even in very rough terrains.

It is also perfectly adapted for races or trails and on difficult paths with the front arms option. Its adjustable handlebar makes it very easy to drive.

The JOËLETTE KID is made in France, with light and durable materials. Its frame and its shock-absorber reduce shocks and vibration during your hike, offering a better experience for the child. Its compact design makes the folding and storage of the JOËLETTE KID easy and fast.
