

## MANUFACTURED IN OUR OWN PRODUCTION UNIT IN FRANCE

**MADE IN FRANCE**

The Joëlette Kid is made in France, with light and durable materials. Its frame and its shock-absorber reduce shocks and vibration during your hike, offering a better experience for the child. Its compact design makes the folding and storage of the Joëlette Kid easy and fast.

# OUR VALUES

## OUR KNOW-HOW

Rich in our know-how, we are continually developing the range to best meet your needs.

## MADE IN FRANCE

All our products are manufactured in our workshop, in France, at Roche-la-Molière.

## INNOVATION

We have our own design office, which constantly develops and evolves our products to enable you to go further and further in your adventure.

## INCLUSION, SOLIDARITY AND SHARING

Our aim is to give everyone access to nature sports, while promoting social links, sharing and solidarity.

## SOLD IN MANY COUNTRIES

Our products are sold in many countries around the world: France, Italy, Spain, Chile, Norway, Sweden, Belgium, United States...

**Joëlette kid**  
joëletteandco.com

Rich of its know-how, Joëlette And Co developed a new product : the Joëlette Kid. This all-terrain chair single-track for disabled children will allow you to go on an adventure with your family or your friends.

## A CONCEPTION STUDIED FOR KIDS

Very comfortable and secure, it has been imagined for children under 25 kg. It is very easy to handle and requires only one guide. This all-terrain wheelchair provides you a comfortable seating and a support to practice hiking or running in all seasons.

Created by our design office, in partnership with an orthopedic center, the Joëlette Kid offers you several possibilities. In particular, it allows you to integrate your seat-corset directly on the product, thanks to a universal interface.

## LET'S GO ON AN ADVENTURE IN SERENITY

Thanks to its two single-track wheels, the Joëlette Kid can go everywhere, even in very rough terrains.

It is also perfectly adapted for races or trails and on difficult paths, with the front arms option. Its adjustable handlebar makes it very easy to drive.

The pleasure of bathing and swimming for all !  
**ONE EQUIPMENT FOR THREE TYPES OF USE...**

The **Sofao** is an amphibian chair enabling any person with reduced mobility to access to swimming-pools and beaches and enjoy the benefits of bathing. It can be used by everyone, children or adults, inside (pools, balneotherapy, aquatic centres...) and outside (sea, lakes, beaches...).

Four floaters with multiple positions allow total immersion up to the shoulders enabling the passenger to be totally autonomous once into the water. You can also relax, without transfer, because the sofao becomes a comfortable deckchair thanks to the adjustable backrest.

The sofao has a triple function : access to bathing areas, getting into the water and immersion in total security. The sofao is entirely foldable without any tools. You can roll it while folded and easily transport it in the trunk of a middle-size car in order take it everywhere...

The classic one-wheeled Joëlette  
**HIKING OR RUNNING FOR EVERYONE AND EVERYWHERE !**

From a simple hike to sportive outdoor activities, the all-terrain version can be used on all paths even the smallest, stoniest or those having cross slopes.

The Joëlette with two wheels  
**A STABLE VERSION, PRACTICAL AND EASY TO OPERATE !**

Designed for runs or hikes on less difficult terrain, with only light slopes or easy trails (asphalt, passable path, greenways...).

The Joëlette TWIN provides a lateral balance and facilitates the use during hikes, family walks and runs. Thanks to its patented pantograph, a system allowing to absorb cross slopes, you

can use the Joëlette even on some rough and sloping terrains. A third removable wheel ensures an extra balance.

The Joëlette with electrical assistance  
**HIKING FOR ALL WITHOUT EFFORT !**

This version facilitates the use of the Joëlette and supports the guide during long excursions, strong slopes or in case of heavy passengers.

The e-Joëlette offers an electrical aid up to a top speed of six km/h. It enables you to hike battery-powered for between three to four hours depending on the degree of the slope. Operated by the back guide, speed increases progressively. Without having the electrical assistance activated, the Joëlette switches to free wheel mode.

## BATHING AT THE SEA

The Sofao gets you to the seaside, beaches or lakes, on sandy or stony terrains. Enjoy a nice moment on the beach and inside the water!

## WELL-BEING AND RELAXATION

The Sofao also plays a role in the well-being of users who can enjoy the pleasure and benefits of water.

## BATHING AT THE SWIMMING-POOL

The Sofao allows the access to all types of swimming-pools : private or public, even without specialized access system.
